Julia Tribe

Lighting designed by
Adam Stewart

Sound designed by
Nick Vuckovic
England in 1604 saw King James newly installed on the throne, succeeding Queen Elizabeth, the second monarch to head the Church of England. This church had broken away from the Catholic Church under Elizabeth's father, Henry VIII, to allow for the first of his many divorces.

Forty-year-old William Shakespeare, the leader of a popular theatre troupe, was trying to make a living in the rough and tumble world of London commerce. Exciting influences, both cultural and economic, were flooding into England from the newly contacted North and South American continents. But the Puritans, a rigidly religious group of people, sought to purify the English church of what they regarded as excesses. The Puritans were opposed to these new influences, as well as any form of entertainment.

They passed a law that forbade Shakespeare from using women on the stage. They used political lobbying to shut down his theatre under the pretext of preventing the plague from spreading. These closures were frequent, and came without notice. Shakespeare lost significant box office revenue as a result. He was at his wit's end.

So it was in this frustrated frame of mind that Shakespeare wrote *Measure for Measure*. He regarded the Puritans to be close-minded, and their relentless political and religious correctness as a kind of hypocrisy. This dark comedy is about what happens when authorities carry the letter of the law too far. It was first performed on December 26, 1604, and the Puritans were not pleased with it.

Fifty years later, at the end of a long century of religious struggle, including a civil war, many Puritans left England for the colonies that would become the United States. Their history there is chronicled in Nathaniel Hawthorne’s novels, such as *The Scarlet Letter*. It is often argued that these philosophies are the forebears of the powerful fundamentalist religious movements in the United States today, which, I am afraid, would not have amused William Shakespeare any more than the unmov ing Puritan movement of his own time.

Duncan McIntosh
MEASURE FOR MEASURE

Cast List

Vincentio, The Duke ................................................................. Matthew Campbell
Angelo, The Deputy .............................................................. Sean Hauk
Escalus, A Lord ........................................................................ Ben Birchard
