DIRECTOR'S NOTES

It is always a thrill and a privilege to present the accomplishments of our young performers. We can appreciate the dramatic growth in their talent: we watch them arrive in first year with little training and a lot of hopes and ambition; and see them now, dancing and singing as a solo act, full of professional confidence and the realization that their dreams are coming true through hard work and drive.

Join us, the faculty and staff, in celebration of their significant accomplishments and in support for their future success.
